Queensland on 26th of August 2021.         The relevant authorities have granted operational works approval, for the proposed lot.         The purchaser should refer to the applicable development approvals for building and/or other requirements that may be applicable to the lot.         Parts of this lot may be subject to rip and re-compact earthwork procedures as determined by site conditions. This process may be completed in cut locations to assist the house pad construction. Any re-compaction will comply with AS3798 requirements and certified by a third party company.         All fill shall be placed and compacted in a controlled manner so that Level 1 level of responsibility may be achieved and certified as per AS3798-2007.         Extent of retaining walls shown indicatively only. Retaining walls may not extend the full length of a lot boundary where finished level between allotments is less than 0.5m.
